He is survived by his parents Mr. and Mrs. E. Felkner. Funeral services will be held at the Herndon-Cornelius funeral home at 2:30 Monday afternoon. Burial will be in Rose Hill Cemetery.

Cranium Crackers

Derby Day
Maybe you have never been to the Kentucky Derby or drunk a mint julep, but you should be able to answer these questions about the Blue Grass State:

1. Name the famous composer who suggested "we will sing one song" for what?

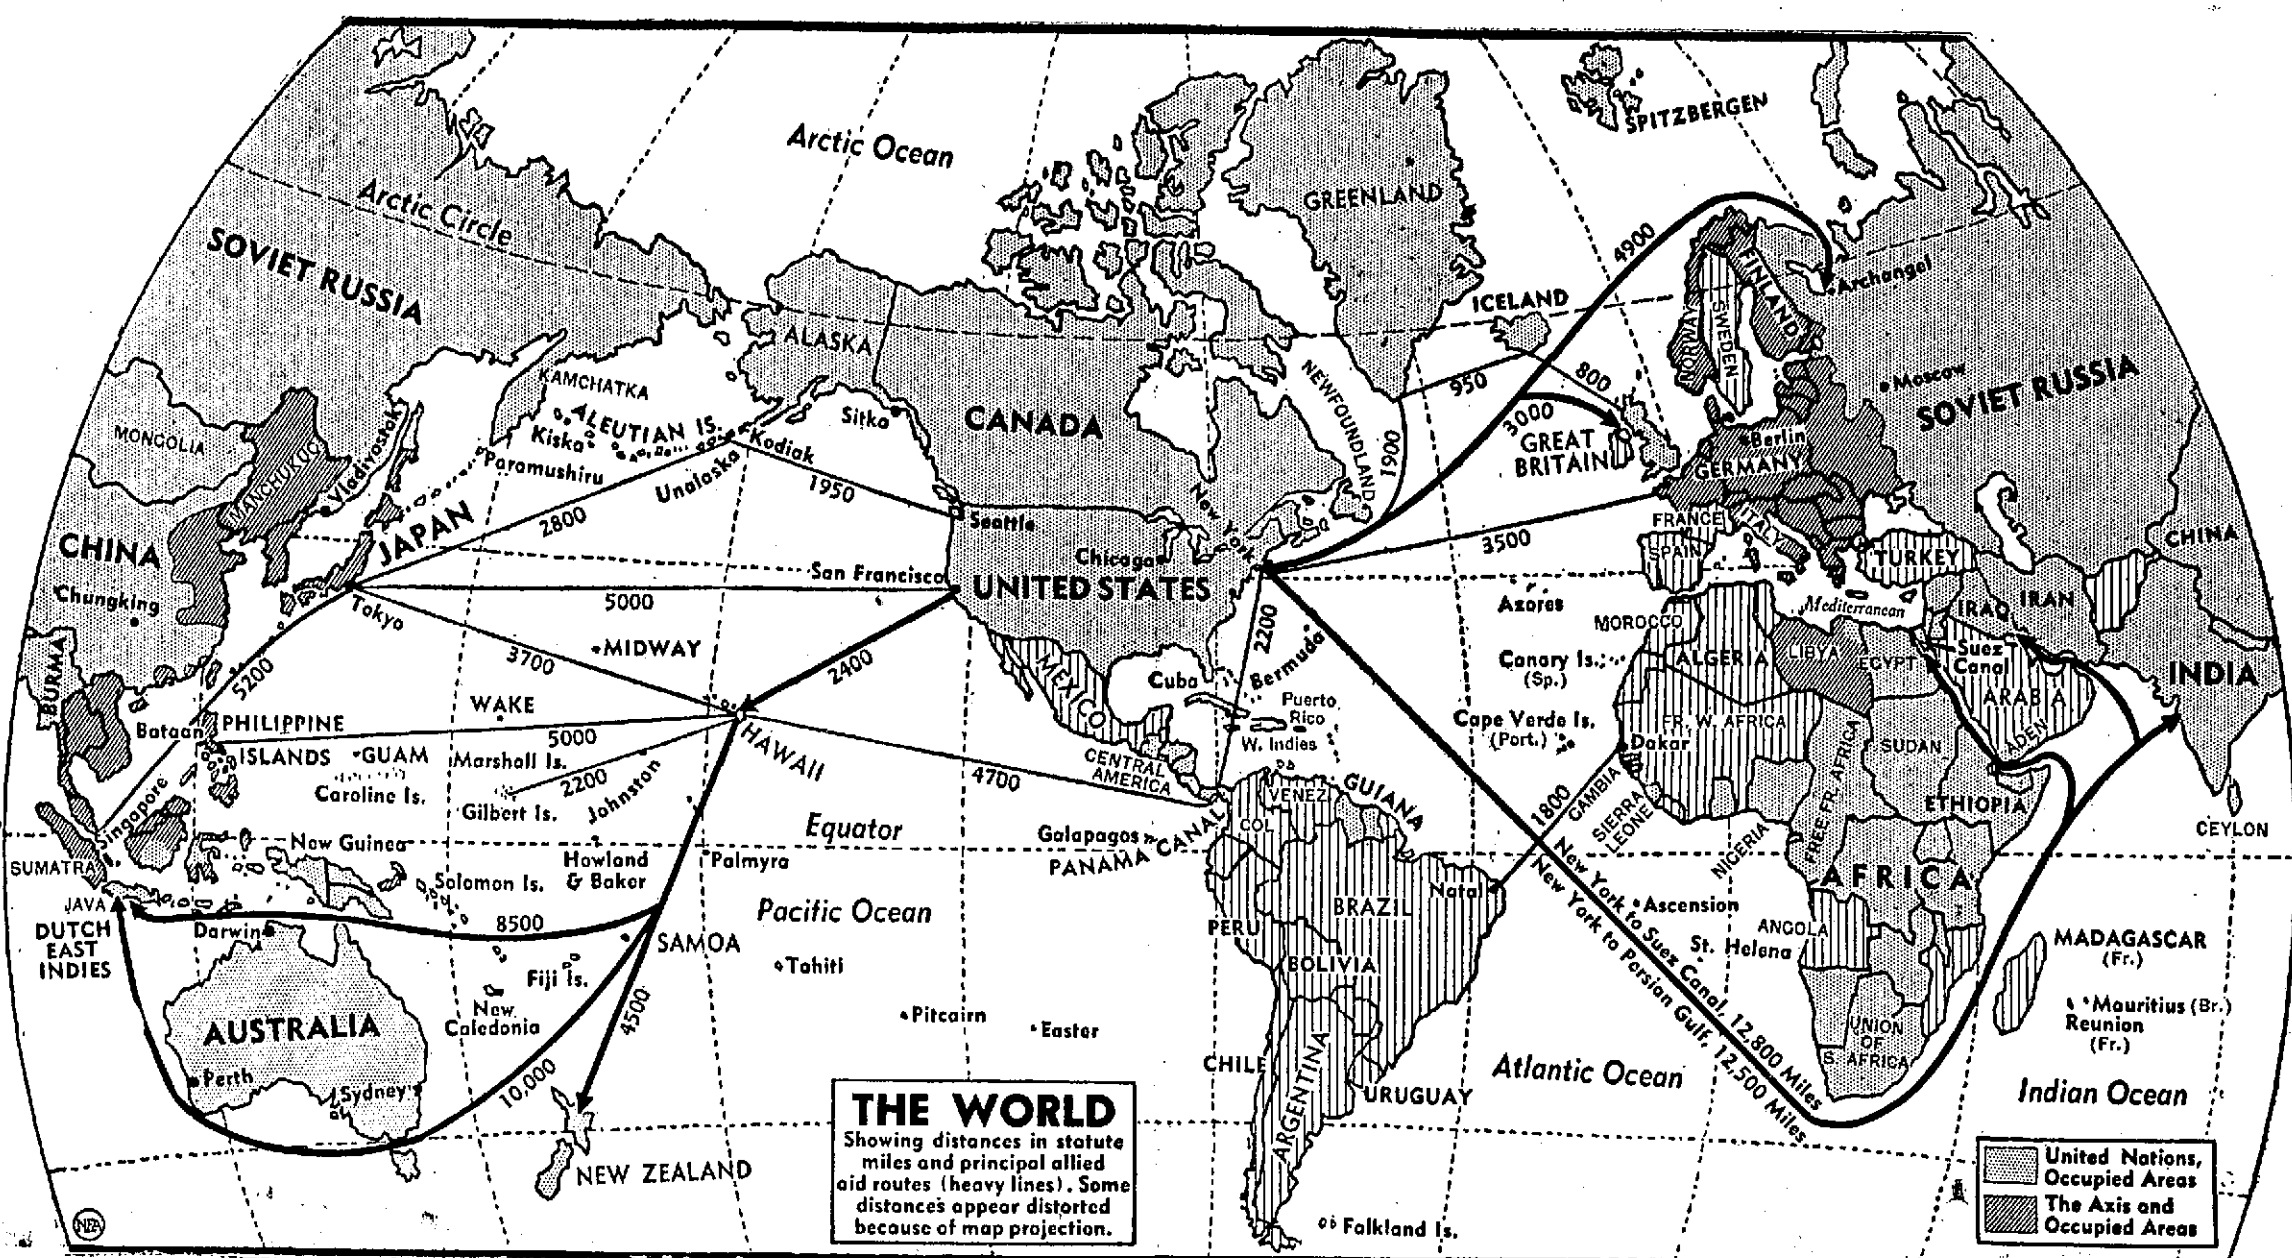

2. What is the largest city in Kentucky? The state capital?

3. Identify the famous appointments of Kentucky governors?

4. What city in Kentucky has the same name as a famous town of the Revolution in Massachusetts?

Allies Smash All But One Ship of Big Armada

United Nations Have Chance to Wipe Out Enemy Forces on Bali

By the Associated Press
Having teamed up with warships in the smashing of an invasion army in the battle of Bali, U. S. and Dutch planes operating alone were reported Monday to have dealt a blow at the Japanese offensive toward the other end of the stronghold island of Java, setting fire to a big transport and strafing other ships in the Bangka Strait.

The new attack was delivered mainly by dive bombers, about 250 miles northwest of Batavia and off southern Sumatra. The stricken transport, was a ship of more than 10,000 tons, the Dutch reported in a communique. It said also that four Japanese planes were downed in attacks Sunday on Java airfields.

Coinciding with the assault the United Nations' airmen machine-gunned other ships.

Land on Bali
At a cost of all but one ship of their invasion armada, according to the Dutch, the Japanese have overrun a part of the island of Bali on the east flank of the United Nations Java island stronghold, seizing an airfield there within 200 bomber miles of Soerabaja, now the number one naval base of the defenders.

But this was a tenuous foothold, one which might readily be wiped out if enough military strength in Java—colonial, U. S. and Australian troops already are on the island—could be safely diverted for the task.

It is possible too that enough troops already on Bali, they have been in action since last Friday—to wipe out the invaders.

No one could say whether the Japanese had a second expedition underway either to support Bali positions or using it as a feint to strike Java in another quarter. Undoubtedly the Japanese would try to capitalize on their airborne positions for the landing of airborne troops.

Exposed to Annihilation
Thus for the first time in the new Pacific war a sizable Japanese expeditionary force is exposed to annihilation—temporarily at least.

Authorities in Batavia as well as the Netherlands Government in exile in London joined in the claims of victory over the invasion fleet.

The fleet of warships and transports which the Japanese sent against Bali appeared to have been pounded to pieces with the running attack of Allied warships and bombers.

It would not be incompatible with such a drubbing at sea for numbers of the seaborne troops to have won land positions before their ships were blasted behind them.

However, it could be assumed that thousands of Japanese troops got no closer to Bali than the shark-infested waters. The first goal of the land-ward parties seems to have been an airfield near the south coast of Bali. This was acknowledged to be in enemy hands.

Acknowledging partial successes of the Japanese lunge at Bali a Batavia announcement said:

"On the other hand strong Allied naval and air offensives against the Japanese expeditionary fleet was so successful that not a single warship or transport remained near Bali to give support or supplies."

Details of Japanese losses in this action still were not complete but was understood to have been considerable.

If the enemy is to exploit his foothold he must get through fresh invasion forces.

Sheriff Makes Raid on Slot Machines

The Hempstead county sheriff announced Monday that several slot machines were confiscated in the Patmos area Sunday night and warned that other raids would be made in the county.

The raid followed complaints from residents of the Patmos area.

Coffee Ration Cut by Swedish Board

STOCKHOLM (AP)—In an effort to conserve Sweden's limited supply of coffee, the Food Commission has cut the ration to 250 grammes (a little more than eight and a half ounces) for adults for the next three months. In addition, no coffee will be issued to households or to restaurants during the spring and summer months, in order that limited ration may be available for the ensuing fall and winter months.

Congratulations to Congress
300-Million Tax Deal Is Killed

On February 19 the House Ways and Means Committee by a vote of 16 to 8 killed H. R. 6465, which aimed to federalize the present state-administered unemployment compensation system and pour into it 300 millions more of the taxpayers' dollars.

The governors of the various states, including our own Homer M. Adkins, fought the bill openly and hard.

So did the press and other business and industrial associations.

The mill began operations in January, and an additional boiler now being installed will further increase its capacity. Present employment is 100 men, with a gross monthly payroll of \$15,000 according to Mr. Anthony.

The first carload of lumber, cleared this week-end, was sold to the United States government for delivery at Bear Strap, Texas.

Marines Held Base
First to land in Cuba in 1898, one battalion of Marines held the naval base there against 6000 Spaniards.

Meridian, Miss. (AP)—The bullet-riddled body of Charles Irvin Chapman, 44, labeled Public enemy No. 1, lay in the morgue here Monday, victim of an FBI ambush Sunday night while officials carried out widespread roundups of his alleged associates in his Neshoba county stronghold which local police said might reach 25 persons.

Six persons already have been arrested.

Meridian, Miss. (AP)—Irving Charles Chapman, designated public enemy No. 1, was shot and killed Sunday night by federal agents, city police and state officers on a highway six miles from Philadelphia, Miss.

Percy Wylie II, chief of the Mississippi field office of the F. B. I., phoned police here that Chapman and a companion, Alfred Ward of Neshoba county, were trapped by a blockade of highway and surrounded by officers. Ward gave up, Wylie said, but Chapman fired five times before he went down in a volley of gunfire from the officers.

For with the other half of the Social Security legislation—old-age benefits administration—a fairly certain thing. Payment depends either on attainment of the age of 65, or death—two things politicians can't fiddle.

But unemployment is at best a questionable term. The very nature of the problem suggests that there will be frequent attempts to make political capital out of it. H. R. 6465 was such an attempt—nor does it reflect credit on the Washington masterminds that they chose this critical hour on the international front to try to "put something over" on the political front at home.

H. R. 6465 is beaten—but the odor lingers on.

Coast Guard Cutter Sunk

Alexander Hamilton Torpedoed Near Iceland

WASHINGTON (AP)—The Coast Guard Cutter Alexander Hamilton has been torpedoed by an enemy submarine off Iceland, the Navy announced Monday.

"While being towed into port," the Navy said "the ship capsize and had to be sunk by gunfire." The navy said the loss of life was "moderate" but gave no details or figures.

The Alexander Hamilton was built in 1937 at New York and is 327 feet long and of 2,141 tons.

She had a speed of 20 knots. Jane's Fighting Ships credited the vessel of her class with two or three five-inch 51 calibre guns plus anti-aircraft guns.

The vessel was the first U. S. combatant ship reported lost in the vicinity of Iceland since the U. S. declared war.

Reds Withhold War Report

Stalin Calls on People to Fight for Liberation

By the Associated Press
Joseph Stalin voicing regret that Russia "has no Allies in the fighting lines with the Red armies" urged millions of soldiers and civilians to fight on to complete victory in the war of liberation.

But at the same time in an order commencing the Red army day Stalin told the people that the way would be hard.

"The Germans," he said "have allies fighting beside them while so far we have not been in that position."

"There is however a small RAF unit fighting from Russian bases and a large Polish army is being organized on Soviet soil."

To outward appearances at least Russia and Japan still are on good diplomatic terms.

A Kulyshchev report said that Japan and Russia still were dickering over the renewal of Russian fishing concessions in Pacific waters.

The Russian ambassador to Tokyo was back on Russian soil enroute to Moscow but said his visit was routine and that he would return to Tokyo.

While the world awaited for an anticipated official survey of the Red Army's present position on the 24th anniversary of the Red organization the day drew to a close with little to fulfill that expectation.

The Moscow radio said the Red navy had sunk 81 warships and 276 auxiliary vessels in the first seven months of the war with Germany.

Election Rumor Take Spotlight

Two Candidates Reported to Be Definitely in

Overshadowed by war news previously Hempstead county election rumors jumped to the front in Hope over the week-end when it was learned reliably that two candidates would definitely announce within the next few days while several other prospective candidates are connected with other races.

It was reliably reported that Frank Hill, present county clerk would seek the sheriff's office, presently held by Clarence Baker who is also expected to seek re-election. Others rumored as possible candidates for the sheriff's office include John Gaines, Tom Middlebrooks and Frank Ward.

Sources in a position to know as asserted that Dewey Hendrix, present assessor, would be a candidate for the clerk's office. Others connected with the race include Andrew (Speedy) Hutson, and Gifford Byers, both were candidates two years ago.

Meanwhile Leo Wray and Otis Landers were mentioned as possible candidates for the assessor's office, presently held by Mrs. Isabelle Onstead.

It is also rumored that Judge Fred Luck, Treasurer Newt Fentecost and circuit clerk, J. P. Byers, will be with out opposition. All will be seeking a second term.

Phoebe T. Harris Is Made Demonstrator

FAYETTEVILLE, Ark. — The appointment of Miss Phoebe T. Harris as home demonstration agent of Randolph county was announced here over the week-end by University of Arkansas officials.

Miss Harris, a graduate in home economics from the College of Agriculture, June 1940, has been assistant home demonstration agent of Hempstead county for the last six months.

Prior to her work in the University's Agricultural Extension Service, she was home economics teacher at the North Heights School, Texarkana, Ark. from September 1940 to May, 1941.

Miss Harris' appointment is effective February 23. She will make Potomac her headquarters.

Russian Women Replace Men in War Industries

WAR, which touches the life of every man, woman, and child in each country it ravages, found the women of Soviet Russia well prepared to take conflict in their sturdy, indomitable strides.

The stamp above, issued in 1941, pictures an infantryman of the Red Army and his mother admonishing him to "Be a hero." Russian women have taken places beside men in factories, in the building trades, on the collective farms, and even in the army. Women pilots, gunners and bombardiers are found in the air force although they do little actual fighting. Their work is to train the young men for those posts.

In contrast to czarist days in Russia, when the woman was considered much in the same class as a pack animal, the Soviet revolution brought wholesale suffrage to the feminine population. Russian women are insulted if called members of the weaker sex. They draw the same wages as men and in some cases equal men in strength and endurance.

The proportion of women engineers, women technicians, women research workers is higher in the Soviet Union than in any other nation.

Why? In order that the great military machine might be built which is now overrunning civilized Europe.

Why? To build the planes that

That's the general reaction in Little Italy to questions about the war situation. Responses aren't always so spontaneous, nor so enthusiastic.

"It is hard."

A few, like one of Little Italy's merchants, have trouble with their answers. He shrugged his shoulders, looked out the window to hide his tear-filled eyes and said:

"What is there for an Italian to say? We must hate our mother country? It is hard. But we must."

A few blocks away at the office of Progresso Italo-Americano, Gen. Giuseppe's newspaper for Italio-Americans, they're anxious to point out that you don't have to depend on words for proof of Italian loyalty.

They cite that of the 800 Axis allies rounded up for hearing before the alien enemy board in New York City.

Little Italy's reaction to the war, says Progresso, is typical of Italian reaction all over the five boroughs of the city, where there are nearly 2,000,000 Italio-Americans.

Italy, now, is part of the common enemy."

Michele doesn't have any children. But Pietro Mascella, a longshoreman friend visiting in the shop, does—and he was anxious to talk about them.

"My boy, Sam, is 23. He's 1-A, has received his induction notice. Another boy, Fido, has volunteered. I wish I could. Life here is good, better than in any other country. This is our country now, our life."

"Italy? What have we, now, to do with that country?"

A woman customer dropped in and Michele asked her what she thought about it.

"We are ready to give our lives if necessary," she said. "We came to America to find better living conditions—not to have two countries

Huge Amounts of Wire Wasted Every Year

Farmers Are Advised to Save Every Piece for Defense

Each year farmers throw away enough baling wire to build three mighty battleships or 3,000 medium tanks, says Oliver L. Adams, county agent.

In other words, he says, much of the 100,000 tons of 14- and 15-gauge wire used on the nation's farms each year for baling straw and forage crops is allowed to rust away in a scrap heap after removal from the bales.

With a little care, reports Earle K. Rambo of the University of Arkansas College of Agriculture, much of this wire could be used a second time, not only for baling economy, but as an important conservation measure and a direct contribution to the national war effort. He adds that farmers might find a situation in which new baling wire cannot be obtained.

The extension agricultural engineer suggests that baling wire be removed either by untying the knot or by cutting the wire as close to the knot as possible, so that it may be used over again. The full length pieces may be used again for tying regular bales, Rambo says, or the shorter pieces may be used again for making shorter, lighter weight bales.

Baling wire hung over a fence or piled in a heap outside the machine shed may rust and become unfit for re-use. Rusting can be prevented by wiping each tie with an oil rag and storing in a dry place.

Rambo says there is still another reason why livestock farmers will want to use care in opening baled hay. When the wire is broken or cut, short pieces may fall into the hay and be swallowed by the livestock. Veterinarians say that many fine cattle, and other livestock, as well, are killed every year by pieces of baling wire that pierce vital internal organs.

BATAAN: A New and Glorious Page for American Histories

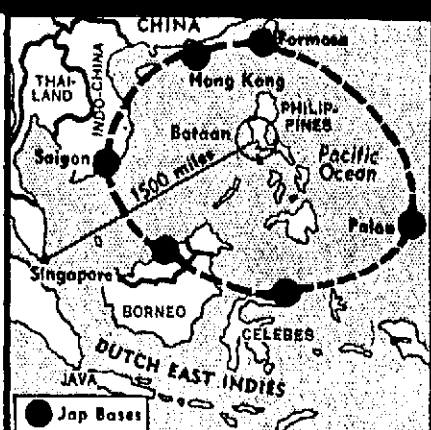

WITHDRAWAL to Bataan followed this pattern. MacArthur, pressed by Jap landings on Luzon, retired to peninsula and Corregidor.

U. S. TORPEDO boats made two daring dashes into Subic Bay to sink Jap supply vessels, hit another enemy ship in Manila Bay raid.

ON BATAAN PENINSULA, a mountainous, jungled region half the size of Rhode Island, Gen. Douglas MacArthur has commanded American and Filipino troops in a stand rivaling any battle in U. S. history for intensity and heroism. MacArthur's men have stood off land, sea and air assaults with continued tenacity, slowly retiring toward the rocky fortress of Corregidor Island, supply and communications base protecting their rear.

BARRIER of Jap bases and seized areas ringing Bataan has kept aid from reaching Philippines "doomed but undaunted" defenders.

GUNS of Corregidor and other U. S. forts dueling with Jap artillery across Manila Bay near Ternate, blasted barges lined up for invasion.

DEATH IN THE NIGHT came to bargeloads of Jap invaders in one of Bataan's historic encounters. MacArthur's "air force"—a solitary P-40 pursuit plane—sighted approaching barges off the west coast one night and flashed a warning. American artillery and bombs from the plane smashed and fired the barges, stopped them all short of shore. In the morning there were dead Jap soldiers and smoking ruins of barges on the beach.

"A BRAVE LOT, not afraid of death," one chronicler called the men with MacArthur. Pressed by 200,000 Japs, they have battled blitz in the jungles of Bataan with the strategy of American frontiersmen. When the enemy charged with planes, tanks, troops, U. S. forces have retired to prepared shelters in the mountain forests, only to emerge, make a stand, then counter-attack and drive the wearying foe back. Anti-aircraft units have bagged many a Jap plane, asked for more; accurate artillery fire has blasted out enemy positions before the attackers could get moving; and plucky Americans and Filipinos still asked to go on the offensive after two months of pounding.

Benjamin Culp Chapter, D. A. R. Celebrates Washington's Birthday

First spring flowers, daffodils, violets, and japonica, decorated the Allen

lee home Saturday afternoon, Feb. 21, when the Benjamin Culp Chapter, D. A. R. celebrated Washington's Birthday with a Silver Tea. The proceeds donated will be given to the Red Cross.

Mrs. J. Alvin Cole, Regent, led the ritual and the Pledge of Allegiance to the Flag. The minutes of the January meeting were read by Mrs. Allen Cole, Secretary, and approved.

Mrs. Cole reported that Mr. Carl Dalrymple, Conservation Chairman, had placed boxes in the schools and requested the pupils to bring used stamps. The dye is extracted from the stamps and sold, the proceeds from the sales assist in supporting the Crippled Children's Hospital in London.

Good Citizenship Pilgrimage Chairman, Mrs. Wells Hamby, reported that she had made the presentation of the award to the Chapter's Good Citizenship Pilgrimage, Miss Mary Elizabeth Hesterly, at the Chapel program of the Senior Class in the high school auditorium. Fighting Slows Up on Bataan

MacArthur Reports Practically No Ground Activity

WASHINGTON (AP)—The War Department reported Monday that fighting had died down in the Philippines on both Bataan Peninsula and in the island of Luzon.

A communiqué said there was practically no enemy air or ground activity in the past 24 hours on the peninsula and that firing between harbor defenses and siege guns batteries had ceased. There was no explanation.

Three weeks have lapsed since General Douglas MacArthur's outnumbered defending armies fought to a halt the latest full-scale enemy offensive.

The communiqué said that on recommendation of MacArthur President Manuel Quezon of the Philippines had awarded distinction to Major Richard K. Sutherland, chief of staff and Brig. Gen. Richard J. Marshall, deputy chief of staff of MacArthur's forces.

The decoration is the highest of the Commonwealth.

First Division of Defense

Home Units Must Form Protective Wing for Area

The first division of volunteer activities in Civilian Defense that is first to function is the protective wing. The enrolled volunteers in this classification must be thoroughly trained and must be available to act in emergencies. "Volunteer" is used herein as a person who gives service without remuneration. The protection division includes the following volunteer worker group: Air Raid Warden; Auxiliary Police; Bomb Squads; Auxiliary Firemen; Fire Watchers; The Medical Corps; Rescue Squads; Nurses; Aides Corps; Staff Corps; Messengers; Drivers Corps; Emergency Food and Housing Corps; Decontamination Corps; Demolition and Clearance Crews; Road Repair Crews. To adequately staff this protection division there must be in the City of Hope, alone, 796 thoroughly trained volunteer citizens. To achieve this goal approximately 3 or 4 times this number must be registered so that qualified volunteers can be selected and trained.

So that all citizens might thoroughly understand the functions of the volunteer group enumerated above the Hemphstead County Defense Council will release to the local press each day an explanation of one of the groups. Readers are urged to save this series of portrayals so that they can be a source of quick reference as to the training and expected functions of each enumerated division of the protective wing of the Hemphstead County Defense Council.

Today's release deals with the first group, the Air Raid Wardens. The remainder will follow each day in the order enumerated above.

The Air Raid Warden is to many people the personal representative of Civilian Defense. He is not a policeman and does not have police powers, but he usually functions as a part of the police force and with its help.

An Air Raid Warden's post is organized to serve a unit of 500 people. It is accessible and plainly marked. Since at least one person is always on duty, four Air Raid Wardens are usually assigned to each post.

The Air Raid Warden's duties include: (1) Observing lights showing during a blackout and warning occupants of the building; (2) directing persons in the street to shelter; (3) reporting to the control center any fallen bombs; (4) reporting fires to the control center and assisting in fighting incendiary bombs as soon as they fall; (5) detecting and reporting to the control center the presence of gas; (6) administering elementary first aid; (7) assisting victims in damaged buildings.

The Air Raid Warden is chosen carefully. The position of Air Raid Warden may be filled either by a man or woman, provided the person chosen is capable of performing the duties. One of the most important duties is to set an example of controlled activity and cool efficiency under all conditions. Training is given on all Air Raid Warden's in gas and fire-bomb defense, first aid, and general organization of air-raid services.

The stripes in the insignia of Air Raid Wardens signify "many duties."

Shoots Hot Pictures

NASHVILLE, Tenn.—(AP)—Fireman James "Hot" Dorris of the Nashville Fire Department goes to a lot of fires in his off hours.

These places he "shoots" with a camera rather than with a fire hose, for "Hot" is the department's official photographer—when he isn't putting in his regular 12 hours as a member of Engine Company No. 7. Some of his pictures are important parts of the prosecution's case in an arson trial.
